

We think there may be a planned hit on at least two specific uniformed officers who will be working the complex as extras, but more details of this have been hard to trace down.

False flag Islamic demands will be posted for the release of "freedom fighters" in Guantanamo, but primarily for the exit of U.S. forces from Afghanistan.

For those of you who haven't figured it out yet, about the extensively drawn out Afghan occupation by a supposedly mighty military (with untold hundreds of billions of dollars worth of military resources AND high-tech intelligence resources), against an out-manned (and out-gunned) rebel alliance with a mysterious decade-plus bottomless supply of resources -> it's all about the three pipelines - the now-complete Caspian Sea oil and natural gas pipelines to China and points in between, and the heroin pipeline to developed countries in the west, especially our country. The continuing vagueness of the Afghan occupation should be as obvious as the nose on your face, and should consume your curiosity. The lot of us here are amazed how this realization escapes the most of you. Of course our senses are heightened on this matter, having learned for the past 6 years of the pending evil and doom of the 2014 Treason Bowl.

There were scattered warnings before the successful treasonous coup de tat of Sept 11. The warnings were not heeded, mostly because such a display of treason wasn't so believable at the time, as much as it is believable now. After that event, those previous warnings were given the status as if they came from the Bellevue nut ward, even though the event itself showed the warnings to be very accurate.

An aside here: one of us has a relative who was one of the many NYFD officers who heard the meticulous floor-by-floor demolition explosives in the World Trade Towers.

The obvious, but never to be explained, breakdown of the tax-payer-financed multi-hundred-billion-dollar-a-year U.S intelligence community is well underway, again. You must recognize that treasonous orchestrations of such grand scale can only be accomplished with the bottomless pockets of intel agencies, with secrecy as their ally.

Rest assured that "treason" is the correct word for the event. The former military explosives experts of contractor Blackwater will be placing the bombs.

We're told that the FBI is complete with the fabrication of evidence. (This reminds me of the NY State Trooper C evidence-fabricating scandal. This time it's federal, with NJ state police help, and much bigger targets.)

DHS gumshoes have covertly infested the operations of the whole complex, supplying reports as to the progress of the logistics of this fabulous false flag murder fest, and hoping to identify any Meadowlands Complex workers who may be getting savvy to the treasonous ploy of federal agencies, and subversive NJ state police.

The daily security of Met Life Stadium currently is anal retentive and far beyond what our contemporaries at other sports arenas have reported in their facilities.
